Seasons

There are four **seasons** in a year. They are winter, spring, summer, and fall.

Spring

Summer

Fall

Winter

Winter

Winter is the coldest season. It can snow during winter. Some animals, like bears, **hibernate** during this time. You can build a snowman, sled down a hill, and have a snowball fight during wintertime.

December, January, and February are the months of winter.

What do you like to do during winter?

Spring

Spring comes after winter. During spring, colorful flowers and leaves on trees start to grow back. Animals come out to play and the sun starts to shine more so it gets warmer.

Spring includes the months of March, April, and May.

What is your favorite flower?

Summer

Summer comes right after spring. It gets really hot, but there are a lot of fun activities to do outside. Most kids do not have school during summer so there is plenty of time to play.

June, July, and August are the summer months.

What is your favorite thing to do in summer?

Fall

Fall comes after summer. Some people call it autumn instead of fall. It starts to get cooler and the leaves begin to change color and fall off the trees.

September, October, and November are the months of fall.

Can you think of any **holidays** that are in the fall?

Here is a wheel showing the months in each season.

Glossary

Season: a time of the year characterized by certain conditions of weather or temperature

Hibernate: to sleep during winter

Holiday: a special day of celebration

Common Core State Standards

CCSS.ELA-LITERACY.RI.1.1

Ask and answer questions about key details in a text.

CCSS.ELA-LITERACY.RI.1.5

Know and use various text features (e.g., headings, tables of contents, glossaries, electronic menus, icons) to locate key facts or information in a text.

CCSS.ELA-LITERACY.RI.1.7

Use the illustrations and details in a text to describe its key ideas.

Science Standard 4

Students describe characteristics for each season and the cycle of the seasons.

1.S.4.1.1

Identify the four seasons and their characteristics for a local region.
