

Let's move the Moscow Food Co-op to 221 E. Third Street, the site of the present Third Street Market. Let's give Co-op shoppers an expanded deli, a wider range of products, and better parking at a beautiful and bountiful new store that retains the cozy and warm feeling of our present quarters. Let's encourage new shoppers to try organic, locally-grown and healthy foods. Let's provide the staff with a space that is set up as a grocery store with proper loading and storage facilities, and no more stairs to climb.

The Co-op Board has secured the new location and planned this project. The Co-op can make this move effectively and efficiently--if we all participate. Please show your faith in the Moscow Food Co-op by offering your support.

GIFTS: Donate labor, money, or materials.

I am interested in volunteering my time. Remodeling the new store and moving the inventory will take many hours from volunteers of many interests, abilities and skill levels. Below please list the activity or activities you would prefer and your level of experience.

Site preparation and demolition _____
Construction _____
Flooring _____
Finish work, painting _____
Landscaping _____
