University of Idaho Open Access Publishing Fund

Report for FY 2021

As a land grant university, the University of Idaho seeks to “shape the future through innovative thinking” and “expand the institution's intellectual and economic impact” (The Office of the Provost & Executive Vice President, “[Strategic Plan and Process | 2016-2025](#),” University of Idaho).

The U of I – Open Access Publishing Fund (OAPF) supports this vision by making the innovative research conducted at U of I as widely accessible as possible.

Supporting open access models of publication demonstrates that U of I embraces equity of access, which is a catalyst for increased impact and visibility throughout the state, nation, and beyond.

During FY 2021, the U of I Library, Office of the Provost, and Office of Research and Economic Development allocated a combined total of \$50,000.00 to pay article processing charges (APCs) in eligible open access journals.

Strategic Goals

Open access and the U of I – OAPF support the [U of I's Strategic Plan](#):

- *Goal 1 – Innovate*: Heighten the visibility of the University of Idaho’s research, innovation, scholarship, and creative works.
- *Goal 2 – Engage*: Reduce barriers related to accessing the University of Idaho’s research, innovation, scholarship, and creative works.
