

University of Idaho Library Learning Outcomes

| University of Idaho learning outcome | Corresponding UI Library learning outcome 2011-12 |
|--------------------------------------|---|
| Learn and integrate | Students can find outside sources for a project that are appropriate for their topic, the requirements of the assignment, and their level of expertise. |
| Think and create | Students can retrieve reliable sources of information using library-based and other information sources. |
| Communicate | Students can incorporate reliable sources of information into research projects using library-based and other information sources. |
| Clarify purpose and perspective | Students can determine the reliability of an information source regardless of the viewpoint presented. |
| Practice citizenship | Students will learn to respect intellectual property by using and attributing sources of information appropriately. |
